Martyka, R., **Arct, A.**, Kotowska, D. Gustafsson, L. (2023). Age- and trait-dependent breeding responses to environmental variation in a short-lived songbird. *Scientific Reports* 13, 14967 (2023) doi.org/10.1038/s41598-023-42166-2

Bailey, L. D., van de Pol, M., Adriaensen, F., **Arct, A.**, Barba, E., Bellamy, P. E., ... & Visser, M. E. (2022). Bird populations most exposed to climate change are less sensitive to climatic variation. *Nature Communications*, 13(1), 2112.

**Arct, A.**, Drobniak S.M., Dubiec A., Rafał Martyka R., Joanna Sudyka J., Gustafsson L., Cichoń M. (2022) The interactive effect of ambient temperature and brood size manipulation on nestling body mass in blue tits: an exploratory analysis of a long-term study *Frontiers in Zoology*. doi. 10.1186/s12983-022-00456-x.

**Arct, A.**, Martyka, R., Drobniak, S. M., Oleś, W., Dubiec, A., & Gustafsson, L. (2021). Effects of elevated nest box temperature on incubation behaviour and offspring fitness-related traits in the Collared Flycatcher *Ficedula albicollis*. *Journal of Ornithology*, <https://doi.org/10.1007/s10336-021-01944-3>.

Drobniak, S., Sudyka, J., Cichoń, M., **Arct, A.**, Gustafsson, L., Lutyk, D., & Janas, K. (2021) Differential effects of steroid hormones on levels of broad-sense heritability in a wild bird: possible mechanism of environment x genetic variance interaction? *Heredity* doi.10.1038/s41437-021-00490-1.

**Arct, A.**, Drobniak, S. M., Mellinger, S., Martyka, R., Gustafsson, L., & Cichoń, M. 2021 Extra-pair paternity in Blue Tits (*Cyanistes caeruleus*) depends on the combination of social partners' age. *Ibis*.

**Arct A.**, Drobniak S.M., Mellinger S., Gustafsson L., Cichoń M. 2019. Parental genetic similarity and offspring performance in blue tits in relation to brood size manipulation. *Ecology and Evolution*. 18: 10085-10091.

Sudyka J., **Arct A.**, Drobniak S.M., Gustafsson, L., & Cichoń, M. 2019. Birds with high lifetime reproductive success experience increased telomere loss. *Biology Letters*, 15(1): 20180637.

Sudyka, J., Podmokła, E., Drobniak, S. M., Dubiec, A., **Arct, A.**, Gustafsson, L., & Cichoń, M. 2019. Sex-specific effects of parasites on telomere dynamics in a short-lived passerine-the blue tit. *The Science of Nature*, 106(1-2): 6.

**Arct, A.**, Sudyka, J., Podmokła, E., Drobniak, S. M., Gustafsson, L., & Cichoń, M. 2017. Heterozygosity–fitness correlations in blue tit nestlings (*Cyanistis caeruleus*) under contrasting rearing conditions. *Evolutionary Ecology*, 31(5): 803-814.

Podmokła, E., Dubiec, A., Drobniak, S.M., Sudyka, J., Krupski, A., **Arct, A.**, Gustafsson, L., Cichoń M. (2017). Effect of haemosporidian infections on host survival and recapture rate in the blue tit. *Journal of Avian Biology*, 48(6): 796-803.

Dubiec, A., Podmokła, E., Zagalska-Neubauer, M., Drobniak, S. M., **Arct, A.**, Gustafsson, L., & Cichoń, M. 2016. Differential prevalence and diversity of

haemosporidian parasites in two sympatric closely related non-migratory passerines. *Parasitology*, 143(10): 1320-1329.

Sudyka, J., **Arct, A.**, Drobniak, S., Gustafsson, L., & Cichoń, M. 2016. Longitudinal studies confirm faster telomere erosion in short-lived bird species. *Journal of Ornithology*, 157(1): 373-375.

**Arct, A.**, Drobniak, S. M., & Cichoń, M. 2015. Genetic similarity between mates predicts extrapair paternity—a meta-analysis of bird studies. *Behavioral Ecology*, 26(4): 959-968.

Drobniak, S. M., **Arct, A.**, & Cichoń, M. 2015. Extrapair paternity and genetic similarity—we are not quite there yet: a response to comments on Arct et al. *Behavioral Ecology*, 26(4): 973-974.

Podmokła, E., Dubiec, A., Drobniak, S. M., **Arct, A.**, Gustafsson, L., & Cichoń, M. 2014. Determinants of prevalence and intensity of infection with malaria parasites in the Blue Tit. *Journal of Ornithology*, 155(3): 721-727.

Sudyka, J., **Arct, A.**, Drobniak, S., Dubiec, A., Gustafsson, L., & Cichoń, M. 2014. Experimentally increased reproductive effort alters telomere length in the blue tit (*Cyanistes caeruleus*). *Journal of Evolutionary Biology*, 27(10): 2258-2264.

Podmokła, E., Dubiec, A., Drobniak, S. M., **Arct, A.**, Gustafsson, L., & Cichoń, M. 2014. Avian malaria is associated with increased reproductive investment in the blue tit. *Journal of Avian Biology*, 45(3): 219-224.

**Arct, A.**, Drobniak, S. M., Podmokła, E., Gustafsson, L., & Cichoń, M. 2013. Benefits of extra-pair mating may depend on environmental conditions—an experimental study in the blue tit (*Cyanistes caeruleus*). *Behavioral Ecology and Sociobiology*, 67(11): 1809-1815.

Podmokła, E., Dubiec, A., **Arct, A.**, Drobniak, S. M., Gustafsson, L., & Cichoń, M. 2015. Malaria infection status predicts extra-pair paternity in the blue tit. *Journal of avian biology*, 46(3): 303-306.

Drobniak, S. M., Wiejaczka, D., **Arct, A.**, Dubiec, A., Gustafsson, L., & Cichoń, M. 2013. Low cross-sex genetic correlation in carotenoid-based plumage traits in the blue tit nestlings (*Cyanistes caeruleus*). *PloS one*, 8(7): e69786.

**Arct, A.**, Rutkowska, J., Martyka, R., Drobniak, S. M., & Cichoń, M. 2010. Kin recognition and adjustment of reproductive effort in zebra finches. *Biology Letters*, 6(6): 762-764.

Drobniak, S.M., Wiejaczka, D., **Arct, A.**, Dubiec, A., Gustafsson, L., & Cichoń, M. 2010. Sex-specific heritability of cell-mediated immune response in the blue tit nestlings (*Cyanistes caeruleus*). *Journal of evolutionary biology*, 23(6): 1286-1292.

**Arct, A.** 2011. Chów wsobny a strategie związane z wyborem partnera do rozrodu u ptaków. *Ornis Polonica*, 52(3).
